 Office Action Summary	Application No. 10/673,592	Applicant(s) COMMINS, ALFED D.	
	Examiner Steve M Varner	Art Unit 3635	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The Terminal Disclaimer filed on 8/11/04 is acknowledged.

Claims 1-18 are cancelled.

Claims 25-27 are cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 40 recites the limitation "the first stud" and "the second stud" in line 8 and 9 respectively. There is insufficient antecedent basis for these limitations in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 40, 41, are rejected under 35 U.S.C. 102(b) as being anticipated by Liem.

Regarding method claim 40, Liem shows selecting a structure having a first support member (13), a second support member (13) substantially parallel to the first support member and spaced therefrom, and at least one tie rod (50) extending between the first and second support members, providing a hold down having a first flange (40)

Art Unit: 3635

and a second flange (40) and a base (11) having at least one aperture (27) extending therethrough, admitting the at least tie rod through the at least one aperture in the base, nailing the first flange to the first stud, and nailing the second flange to the second stud (Col. 5, Line 60-end), and tightening at least one fastener (54) on the at least one tie rod (Fig. 3, 4).

Regarding method claim 41, Liem shows wherein selecting a structure having first and second support members comprises selecting a structure with first and second horizontal support members.

Allowed Claims

Claims 19-24, 28-39, are allowed.

Response to Arguments

Applicant's arguments, see Remarks, filed 8/11/04, with respect to claims 19-24 have been fully considered and are persuasive. The rejection of claims 19-24 has been withdrawn.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bugbee et al. shows a light wood truss connector. Gib et al. shows a standoff timber base connection. Liem shows a wall construction system. Wolfson shows a holddown apparatus for a shear wall. Commins shows a balanced multi stud hold down. Phillips shows a tie down for building structures.

Art Unit: 3635

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
